[2] Founded in 2003 by Swedish think tank Piratbyrå, The Pirate Bay allows visitors to search, download and contribute magnetic links and torrent files, facilitating peer-to-peer (P2P) file sharing among users of the BitTorrent protocol. The Pirate Bay has caused controversy and discussion on legal aspects of file sharing, copyright and civil freedoms and has become a platform for political initiatives against established intellectual property laws as well as a central figure in an anti-copyright movement. [3] The site has faced several shutdowns and domain attachments, switching to a series of new web addresses to continue operating. [4] In April 2009, the website's founders (Peter Sunde, Fredrik Neij and Gottfrid Svartholm) were convicted in the Pirate Bay trial in Sweden to assist with copyright infringement and were sentenced to serve one year in prison and pay a fine.
